THE BOND REPEALING
ORDINANCE.

The lone Echo says that the ordinance passed by the supervisors, repealing subdivision 3 of section 5 of Ordinance No 118, relating to the giving of bonds by the engaged in the sale of liquor, is defective, and conflicts with the constitution. An examination of the ordinance as printed is sufficient to show that this contention is probably correct. Section 24 of Article 4 of the state constitution reads as follows:

No law shall be revised or amended by reference to its title; but in such case the act revised or section amended shall be re-enacted and published at length as revised or amended.

It will not be disputed that this provision applies to laws passed by the supervisors, as well as general laws passed by the legislature. Now the ordinance referred to disposes of the matter in this off-hand fashion.

The board of supervisors of the county of Amador, state of California, do ordain as follows:

Section 1. Subdivision 3 of section 5 of ordinance No 118, providing for the filing of a bond in the sum of one thousand dollars in support of a permit being granted to conduct a business for retailing liquor and cigars in the county of Amador, state of California, passed and approved by the board of supervisors of the county of Amador, state of California, on the 7th day of June, 1904, is hereby repealed.

The whole of section 5 is not re-enacted nor published at length, but merely subdivision 3 thereof.

The question arises if this repealing ordinance is invalid and void by reason of this non-compliance with the provisions of the organic law, how will it effect those persons engaged in the liquor business who act under its provisions. It may be said that the ordinance is law until it has been declared otherwise by the court. But in the event of a test case, and the court holding that the ordinance was improperly passed, and therefore void, it would simply revive the subdivision as it stood before; that is the provision regarding the \$100 bonds would still be in force. Would the bondsmen be liable for the action of the principal in the selling of liquor within the prescribed limits of the Preston school? These are questions that should be carefully looked into, and no doubt will be fully considered before any decisive step is taken.

AN ARGUMENT FOR
INCORPORATION.

Last week we called attention to the fact that Amador county, through its board of supervisors, had ignored a request for a donation toward the repair of the cemetery fence, which incloses the burying place of the dead from the county hospital. This action is so pregnant with meaning to the citizens of Jackson that we think it not out of place to discuss it at greater length. We are free to say that the turning down of so just a request was perhaps due to prejudice against the county seat, rather than the result of deliberative action after a full and careful investigation of the merits of the proposition. Whatever motive prompted them, we cannot believe their repudiation of the county's dead will be sustained by the unprejudiced citizen, no matter in what part of the county his lot may be cast. The argument, if we may dignify it by that term, that because the hospital is located at Jackson, it is the duty of Jackson's people, and not of the people of the entire county, to look after the burial place of the hospital's dead, needs no refutation. It is too preposterous to require an answer. It would be just as reasonable to ask Jackson to feed and clothe and maintain the hospital patients during life, as to require that the town take charge of their remains after death. The one duty involves a much larger expenditure than the other, but they both stand on the same footing. The authority that is charged with the duty of maintaining the living indigents, cannot escape the responsibility of providing and caring for the place of interment. But because the town of Jackson has in a great measure relieved the county of this duty in the past, the board of supervisors have no right to assume that the county can impose this burden upon them entirely and continuously.

This incident, more than anything that has occurred for a long time, ought to convince the people that the incorporation of Jackson is the only way of protecting the town against such injustice. Unincorporated Jackson is powerless. The graveyard itself is under the jurisdiction of the supervisors. They can refuse to appropriate money for its proper care, and can decline to let go to the citizens who would take care of it. With incorporation, however, it would immediately pass under the control of the city government. The burial of indigents one on top of another would be stopped, and the county compelled to look up a plot of its own for a cemetery, and take care of it with county funds. That seems the only feasible way of solving the

difficulty. It is not only in this graveyard matter that the feeling of jealousy against Jackson's growth and influence has developed. The control of the town by the supervisors is detrimental in other ways. At the last meeting a petition was presented asking for a reduction of the license on shooting galleries from \$25 to \$5 per month. It was refused. It is well known that Jackson is the only town in the county where such business could live, even at the reduced rate. The denial, therefore, was a slap at the county seat; a refusal, as far as the board was concerned, of permission to start another business enterprise here, that cannot live under the existing prohibitory license.

With such a spirit directing affairs, the county seat is handicapped. The envy of Jackson was shown in express words, as well as unjust action. It is regrettable to be forced to admit the display of such a spirit, but it is no use to close our eyes to facts. We must seek the remedy, and apply it as soon as possible. And the remedy is in our own hands. We can simply take the territorial limits of the town out of the hands of the supervisors, and manage our own affairs to suit ourselves. We are not compelled to be at the mercy and dictation of outside representatives any longer than we choose to. We mistake the spirit of Jackson's citizens if they submit to such imposition indefinitely.

THE CODES AND THE
LIQUOR BUSINESS.

As there is much interest taken in the revision of the codes by the last legislature, as affecting the sale of liquor, we have taken the trouble to look into the matter, and herewith present the result, showing the law as it stood before the codification by the code commissioner, and the law as it now stands as codified. Before the code commissioner and last legislature muddled the question, the law was embodied in section 172 of the penal code, and three acts bearing on the restriction of the sale of liquor within certain limits. These provisions are as follows:

See 172—Every person who, within two miles of the land belonging to this state, upon which the state prison is situated, or within one mile of the insane asylum at Napa, or within one mile of the grounds belonging and adjacent to the University of California in Alameda county, or in the state capital, or within the limits of the grounds adjacent and belonging thereto, sells, gives away or exposes for sale any vinous or alcoholic liquors, is guilty of a misdemeanor.

An act to prevent the sale of intoxicating liquors in the immediate vicinity of soldiers' homes approved March 26, 1895.

See 1—Every person who sells or gives away any ale, beer, wine, cider, or other intoxicating liquors, within one and one-half mile outside of the boundary line of the lands occupied by any home, retreat, or asylum for disabled volunteers, soldiers, or sailors, which has been, or may hereafter be established by the government of the United States, within the state of California, is guilty of a misdemeanor."

An act to prohibit the sale of intoxicating liquor in the state capital—Approved and in effect April 16, 1880.

See 1—Any person or persons having in charge or control the state capital building and allowing the same, or any portion thereof to be used for the sale or distribution in any manner, for profit, of any malt or spirituous liquors, shall be guilty of a misdemeanor," etc.

These were the laws as they existed prior to the action of the legislature. These three provisions have, under the touch of the code commissioner, been codified into the present section of the penal code, which has caused so much discussion, and which reads as follows:

See 172—Every person who, within two miles of the land belonging to this state upon which any state prison or reformatory is situated, or within one mile of the grounds belonging and adjacent to the University of California, or within one and one-half miles of the land occupied by any home, retreat, or asylum for disabled volunteers, soldiers, or sailors established or to be established by this state, within the United States within the limits of the grounds adjacent and belonging thereto, sells, gives away, or exposes for sale any vinous or alcoholic liquors, is guilty of a misdemeanor.

In a note explanatory of the section as amended it is said,

The amendment consolidates the provision of the present (old) section 172 with a codification of the statutes of 1873-4 page 12; 1880, page 80, and 1889, page 10, relating to the university, soldiers' homes and state capital. There is no new legislation in the section.

The statement that there is no new legislation will be received with a gash in view of the effect which the recodified section has had in the town of Ione and elsewhere, which were not affected by the old section.

The truth is it contains a great deal of new legislation, which is plain from a comparison of the old with the new law. The word "reformatories" is inserted; Napa asylum is left out, and Alameda county is left out in the limitation of the university grounds, so that it now applies to all the property of the university whether in Alameda or San Francisco. Towns are affected that were not affected before; and Napa which was concerned in the old section is released under the new. It is a sweeping and radical change. That it should pass the ordeal of both branches of the legislature without being detected is astounding, and can only be explained on the theory that the legislators depended upon the judgment of the code commissioner who recommended the change.

Indigestion Causes
Catarrh of the
Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of Indigestion inflames the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure

DOUBLE WEDDING.

The Methodist parsonage was on yesterday morning the scene of a very pretty wedding the contracting parties being Mr. Elmer Dufrene and Miss Louisa J. Buddell, Rev. C. E. Winning officiating. The young people are well known and the union is particularly promising of happiness. After a honeymoon in San Francisco the young couple will return to Jackson where their future home will be. The parlor of the parsonage was beautifully decorated for the young couple and by a happy arrangement the same floral decorations which beautified the room in the morning were still in place when in the evening the mother of the morning's bride, Mrs. Louise J. Langdon, and Mr. Caleb Chin appeared in the same room and by the same minister and the same ceremony were pronounced husband and wife. Mr. and Mrs. Chin are well known in Jackson and the Ledger tenders its hearty congratulations. Seldom is a daughter and mother wedded on the same day. We trust the coincident will be abidingly happy as it is romantic.

JACKSON SCHOOL NOTES.

The two lower rooms—Miss Breeze's and Miss Morrow's—each rendered an interesting program this morning. In the other rooms the time was devoted to the last of the final examination—the last for all excepting the 9th grade, who will take their next exam.

A complete list of promotions in all the rooms will be published next week. The principal's yearly report will also appear at that time.

Grand exercises—an interesting program for which had been planned, will probably be held at Love's hall some time toward the latter part of the month. More definite announcement later.

CUTTING SCRAPES.

Joseph Sanchez was the main actor in a cutting affray that occurred in Sutter Creek last Friday night. It seems that the Italian couple who stopped off to Angels get married, went to the house of the parents of Bina Lepithic, the bride, and were brought back to Jackson, made up with the objecting master, and wife married Friday. In Sutter Creek, where the grooms were enjoying a social dance in celebrating the wedding, Sanchez appeared at the house of mirth. He is the same mustang breaker who got into trouble in Jackson two weeks ago by riding his horse on the side-walk and into business places in Jackson. He was under the influence of liquor. He wanted to join in the festivities, and the desire of the festal gathering was to get rid of him in the easiest fashion. He promised to go if one was given him and the crowd reluctantly consented. But he was not satisfied, and, one of the male participants started to put him out. He seized his hand through the glass door. When further reprimanded with he drew a knife and slashed an Italian through the heart. The blade did not penetrate the cavity, but missed doing so by a very slender margin. The man is in a precarious condition. Not satisfied with this he slashed another Italian, cutting his clothing, missing the flesh. He then pulled a pistol and fired two shots, both of which went wild. He then retired to his room, where the constable soon visited him. He feigned to be asleep. The knife covered with blood was found under his pillow. He is now in the county jail awaiting the result of his injuries. Sanchez came from Texas about a year ago, and has been in Amador and Calaveras county most of the time since. Sanchez was taken before Justice Rose on Wednesday, and had his examination. He was held to answer, with bail bonds fixed at \$1500. His victim will recover.

It is reported that a rule has been made in railroad circles that no man shall be employed unless he can speak the English language, so as to be able to understand orders and make himself understood by others. This is a much needed precaution for the protection of employees as well as the company. The rule might be adopted with good results in other industries. Why should not the idea be incorporated into law?

A. H. Kuhlman has bought a five-horse power gasoline engine with which to run his planing machinery etc., in his shop on Water street. He has fitted up the adjoining premises as a part of his workshop. With the two places he will have a commodious and convenient place for his business.

Miss Clara Anderson, of Jackson, who is a schoolteacher in Julian district, was successful in winning one of the prizes offered by the Sacramento Union on a voting contest. She received over 17,000 votes, beating her nearest opponent nearly two to one. She will be entitled to a free all round ticket to the Portland fair, and expenses paid during one week's visit. Jackson is to be congratulated upon gaining this distinction for one of her fair daughters, and indeed the honor could not have fallen upon a more deserving one than Miss Anderson.

Thus Lenin has fitted up his new premises in the old Enterprise stable as a saloon. A portion of the front has been partitioned off, and nicely papered and a neat bar put therein.

F. H. Duden returned last Thursday from the city whither he went to arrange for new boxes and outfit for the postoffice. He has secured a fine up-to-date outfit. The department requires that for a postoffice of this class the fittings be in accord with the most approved pattern. The Odd Fellows who own the building in which the postoffice is located, are expected to make extensive repairs and changes so as to comply with modern requirements. Mr. Duden returned to work at the Kennedy, pending the receipt of his commission as postmaster. This may be expected by the end of the week but he does not expect to take charge of the office until July, which is the beginning of another quarter.

MINING NOTES.

Kennedy—The east ledge at the 2750 feet has been passed, and the west vein is expected to be struck at any time. The fact that the vein was struck so much further to the west than was expected shows that the ledge has been greatly deflected from its usual dip to the east, and has straightened up almost to the perpendicular. This is one explanation of the occurrence. Another is that the ledge may have flattened at this point, so that the drift at the 2750 feet took under it, and that the ore body actually struck, is one of the ledges to the west. It will take considerable development to definitely settle these questions. The mill is running along smoothly, and the rock is turning out a satisfactory yield.

Bunker Hill—At this mine the stamp mill is kept running steadily. The ore body in sight is short, and E. H. Harrington, the superintendent, is devoting considerable work to prospecting, which up to the time he took hold of the management had been neglected. He is very hopeful of getting the mine on a sound basis. The ore is of low average grade. A new pump is soon to be installed. The expense account has been materially cut down.

Mitchell—it is rumored that the Mitchell mine has been sold. The property is situated one mile north of Pine Grove. It has been idle for nearly three years. Negotiations have been in progress for months looking to its sale. The property is considered about the most likely in that section to open up into a dividend paying mine. The ore paid up to the time of closing down; the additional 10 stamps to the mill involved the owners in debt, and led to the collapse.

Nearly all the machinery of the 40 stamp mill of the Amador Gold mine in Hunt's gulch has been removed to the Voinich mine in Calaveras county, where it is to be erected anew.

According to the last report of the Del Monte the prospects of the mine have materially improved during the past month. A small seam of quartz has been encountered in the upraise which assays well, and promises to open up into a good paying ore body.

LOST EVERYTHING BY FIRE.

Saturday night between 3 and 10 o'clock, the Dewitt dwelling house on Murphy's ridge, two miles south of Jackson, was entirely destroyed by fire, with all its contents. The house was occupied by Matt Thomas and wife. How the fire originated is a mystery, but it is supposed that a defective stovepipe was the cause of the trouble. It was fully three hours after the evening meal had been disposed of and the fire in the kitchen had been allowed to die out. Still it is possible that sparks may have been smoldering all the time and finally started the blaze. Matt Thomas, in Jackson at the time, Mrs. Thomas had retired to bed, with a younger sister, who was there for company. Fortunately she was awakened by something falling and rising to investigate, as she passed into the hallway the door fell and the flames burned her face and hair. She had all she could do to save herself and sister. All the furniture and clothing, except that which she escaped in was destroyed. The heat was so intense that it melted the money that was in the house into nothing. The loss in furniture and valuable property is put at \$1000, upon which was not one dollar of insurance. Matt Thomas has been working on shares on a lease of the O'Farrell mine at Middle Bar. Everything he had was in the dwelling.

It is reported that a rule has been made in railroad circles that no man shall be employed unless he can speak the English language, so as to be able to understand orders and make himself understood by others. This is a much needed precaution for the protection of employees as well as the company. The rule might be adopted with good results in other industries. Why should not the idea be incorporated into law?

A. H. Kuhlman has bought a five-horse power gasoline engine with which to run his planing machinery etc., in his shop on Water street. He has fitted up the adjoining premises as a part of his workshop. With the two places he will have a commodious and convenient place for his business.

Miss Clara Anderson, of Julian district, was successful in winning one of the prizes offered by the Sacramento Union on a voting contest. She received over 17,000 votes, beating her nearest opponent nearly two to one. She will be entitled to a free all round ticket to the Portland fair, and expenses paid during one week's visit. Jackson is to be congratulated upon gaining this distinction for one of her fair daughters, and indeed the honor could not have fallen upon a more deserving one than Miss Anderson.

Thus Lenin has fitted up his new premises in the old Enterprise stable as a saloon. A portion of the front has been partitioned off, and nicely papered and a neat bar put therein.

It is moreover cool and commodious in the rear, where there is plenty of room for games of all kinds.

In a recent issue of the "New York Times" it is reported that a man named John D. Lee, who was a member of the Ku Klux Klan, was captured in the state of Mississippi. He was tried and found guilty of the murder of a Negro woman, and sentenced to death.
